Hon. Charles Kramer,
Chairman, Committee on Patents
House of Representatives
Washington, D.C.

Dear Congressman Kramer,

Mr. Norwig, clerk of your committee, informs me that before he sends me a transcript of my recent testimony he will have to have your approval. Accordingly, I am making that request of you. I understand this is the regular practice of Congressional committees, and that I will be allowed to make corrections of errors only. Further, I will return the transcript promptly in order not to delay the committee in any plans it may have for printing.

Thank you very much.

Yours truly,

Harold Weisberg
